PERMISSION FOR INDEPENDENT STUDY

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Title of Independent Study: \_\_\_\_\_

What semester will you be doing the independent study? \_\_\_\_\_

[Attach one-page description and plan for your independent study]

Is this to fulfill the Capstone Requirement? YES \_\_\_\_\_ NO \_\_\_\_\_

Supervisor of Independent Study: \_\_\_\_\_

Supervisor's title/position: \_\_\_\_\_

Contact Info for Supervisor:

Email \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_

Signatures:

•Student: \_\_\_\_\_

•Supervisor: \_\_\_\_\_

•*HSOC Faculty Approval (if supervisor is not an SAS faculty member):*

\_\_\_\_\_

•Undergrad Coordinator or HSOC Director

\_\_\_\_\_

Here's how the independent study works: if the research supervisor is a faculty member in SAS, you register for HSOC 499 with him or her as the "instructor." If the supervisor is not in SAS (like Dr. Ohene-Frempong), you register for HSOC 499 with me as the "instructor." You do the work with your supervisor; when it's done, your supervisor submits a brief evaluation to me, and I fill out the grade sheet. This is our way of accomplishing our educational goals while keeping the registrar's computer happy.

#### PROCEDURE FOR INDEPENDENT STUDY WITH NON-SAS SUPERVISORS

1. Talk to the supervisor of the proposed independent study and develop your proposal and a plan for completion of the study
2. Fill out the permission form, and get the supervisor's signature
3. Bring the permission form (with proposal and plan attached) to the Undergraduate Coordinator (Dr. Greene)

You will not be able to register for an independent study without the permission form.
